

Offham Cricket Club

Changing Rooms and Showering Facilities Policy

Date approved: 9th March 2021

Review date: 8th March 2022

Offham Cricket Club recognises the potential safeguarding risks associated with children and adults using the same changing facilities, at the same time.

Whenever possible the following will apply:

- Adults must not change, or shower, at the same time using the same facility as children under the age of 16;
- If adults and children do need to share a changing facility, they must do so at different times;
- Where there are mixed gender teams there should be access to separate male and female changing rooms;
- Due to the risks of inappropriate photography or video, mobile phones **must not** be used in changing rooms.

Where children are uncomfortable changing or showering at the club, no pressure should be placed on them to do so. It may be advised that they change and shower at home before or after a game.
